DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2, 6-7, 10, 13-16, 20-21 and 24 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The closest reference the Examiner was able to locate was:

a) Dwinell US 6,726,048, teaching a tamper evident overcap for drum plugs. The reference fails to teach a center post positioned between a pair of living hinge strips. Furthermore, the reference fails to teach tamper evident means comprising first and second pins in unitary connection with the outer sections of the overcap.

No motivation could be found to combine additional tamper evident features taught in the instant application. In fact, Dwinell '048 teaches away from additional tamper evidencing, in col. 3, lines 57-64, teaching the interlocking engagement between the over cap and the plug is permanently secured, and makes "unauthorized removal of the overseal extremely difficult, if not impossible, without destroying the overseal or certainly leaving very clear evidence of tampering" (emphasis added).
